## EDUCATION

---

### San Jose State University

Bachelor of Science in Software Engineering - 3.7/4.0 GPA

Dec. 2025

San Jose, CA

## WORK EXPERIENCE

---

### Software Engineer - Full Stack Development

Jun. 2024 - present

Cinefind - TypeScript, Next.js, React.js, MongoDB, Prisma, Tailwind CSS

- Developed an automated online platform connecting 750+ users to free local movie screenings
- Led full-stack redevelopment of company website using Next.js, boosting performance by 55% and SEO by 33%
- Designed MongoDB models with Prisma, improving query efficiency by 20% and reducing storage usage by 25%
- Collaborated within an Agile team to incorporate user feedback, delivering iterative software enhancements

## PROJECTS

---

### Twitter/X Bot Detector - Machine Learning Engineer

Python, Flask, Scikit-learn, Pandas, SHAP [\[Code\]](#)

- Engineered a machine learning pipeline that identified 80% of Twitter/X bots using a 1M-user benchmark dataset
- Collected data, performed feature selection, and preprocessed it to ensure high-quality input for model training
- Fine-tuned a Random Forest classifier using performance analysis and SHAP, improving bot recall by 15%
- Created a Flask API to use the trained model for real-time bot detection and feature explanation

### Vinyl Bot

Python, Cron, Jinja [\[Code\]](#)

- Automated Python scripts with cron jobs to receive real-time email notifications for desired vinyl record releases
- Leveraged the Discogs API to retrieve and analyze user want-lists, streamlining the identification of desired records
- Integrated the Reddit API with r/vinylreleases to analyze 100+ record releases daily, ensuring timely notifications

### Spotlefy

TypeScript, Next.js, React.js, Tailwind CSS [\[Website\]](#) [\[Code\]](#)

- Built a web application with Spotify API integration, allowing users to create and play personalized Heardle games
- Incorporated a user-accessible popup to display all-time game statistics, enhancing user insights and experience

### Split

TypeScript, Next.js, React.js, MongoDB, Prisma, Tailwind CSS [\[Website\]](#) [\[Code\]](#)

- Implemented a web application for users to log workouts and track progress through dynamic data visualizations
- Streamlined login efficiency and security by integrating Google authentication with NextAuth.js

## SKILLS

---

**Languages:** JavaScript, TypeScript, Python, Java, C, SQL, HTML, CSS

**JavaScript Frameworks/Libraries:** Node.js, Express.js, Next.js, React.js, React Native, Tailwind CSS

**Python/ML Libraries:** Flask, Scikit-learn, Pandas, SHAP, OpenCV, Transformers, Joblib

**Database Technologies:** MongoDB, MySQL, Mongoose, Prisma

**Developer Tools:** Git, GitHub, Jupyter Notebook, Figma, Postman, VS Code, Vercel

## LEADERSHIP & OTHER EXPERIENCE

---

### Lead Basketball Instructor

Jul. 2024 - present

Lifetime Activities

Cupertino, CA

- Orchestrated basketball skills programs for children and teens, achieving 25% enrollment growth per eight weeks

### Operations Manager

Mar. 2022 - Sep. 2022

AMC Theatres

San Jose, CA

- Managed HR functions such as recruiting, payroll, training, and optimizing team schedules to save \$10K+ quarterly
